ULTIMATE SOLUTIONS IN BARRIER PROTECTION

0800 864 725
bastionpacific.co.nz

Welcome from the Bastion team

Since our inception in 2004, Bastion has grown into a leading Australasian company, proudly serving New Zealand and Australia with top-tier personal barrier protection and janitorial products. Our name is synonymous with reliability and excellence in serving a diverse range of sectors, including healthcare, food manufacturing and services, janitorial, farming, industrial, and retail.

As a family-owned Kiwi business, our roots are deeply embedded in the values of honesty, integrity, and reliability. We're more than just suppliers; we're partners in building a safer, cleaner future. Our experienced team is dedicated to providing tailored advice and support, ensuring you have the perfect products for your industry's specific needs.

At Bastion, our commitment goes beyond mere transactions. We promise to keep New Zealand's workforce safe and environments clean with our high-quality barrier protection and janitorial solutions. Our combination of exceptional products, deep technical expertise, ample stock availability, and unparalleled customer service defines our approach.

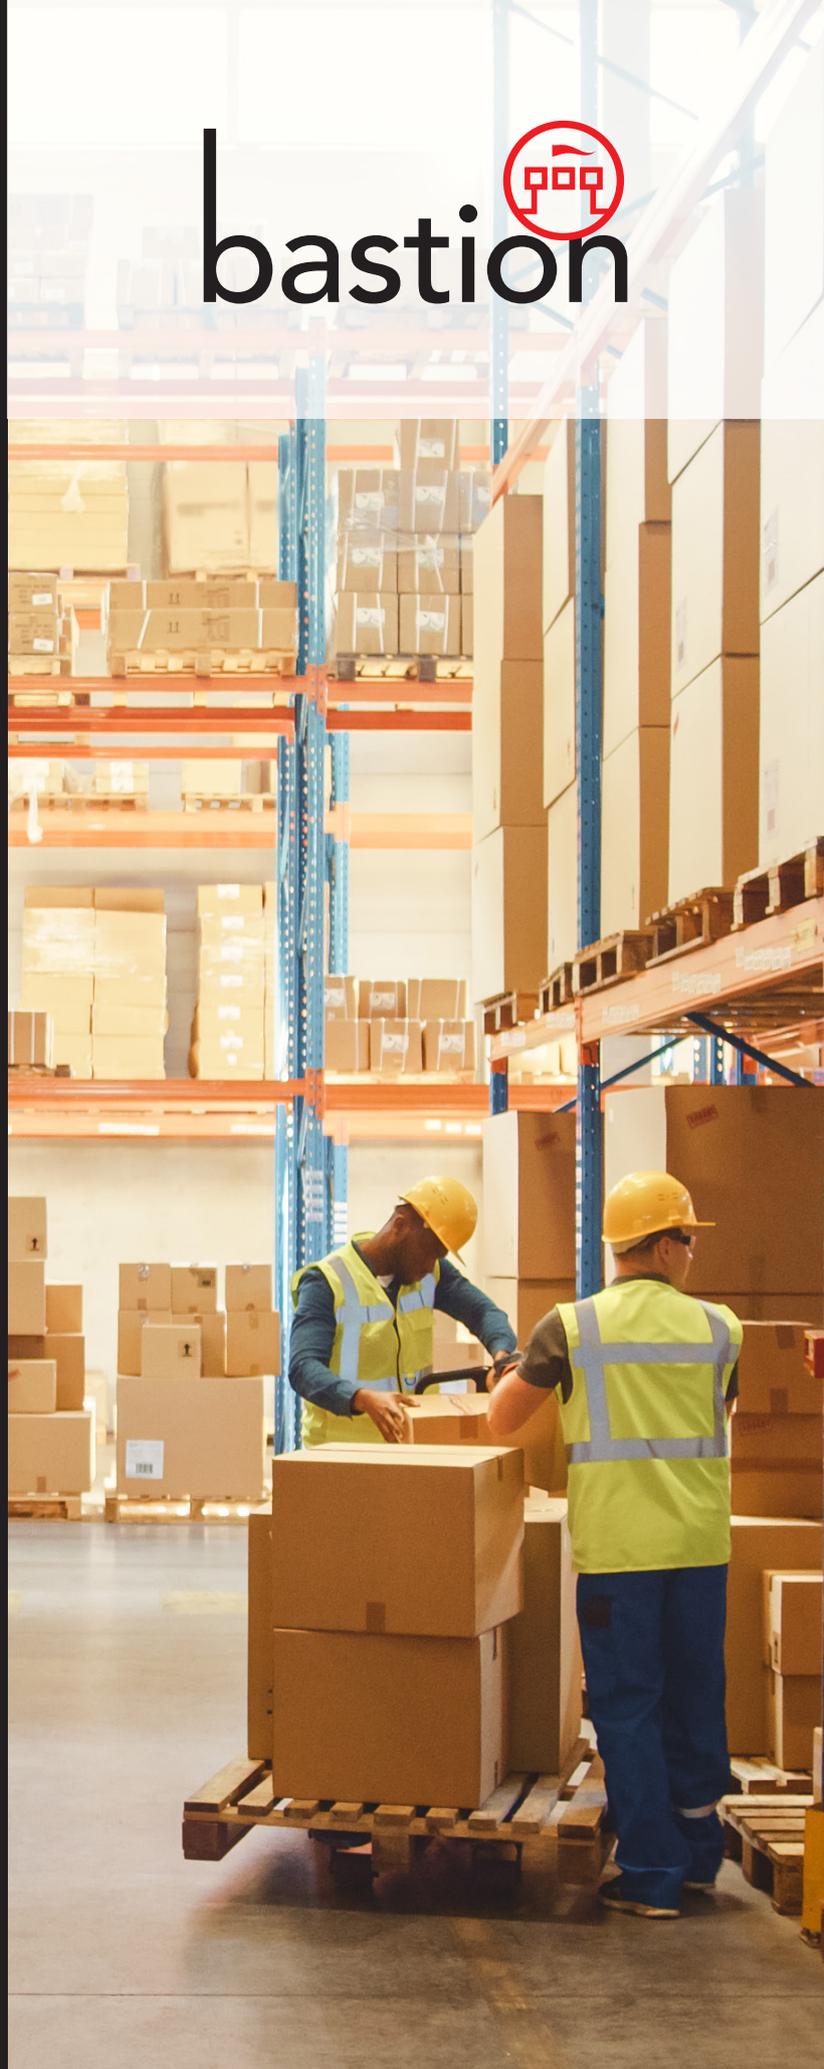

Join us in our journey to safeguard and clean with excellence. Bastion – where quality meets care.

Why Choose Us?

QUALITY

Quality assurance has always been a priority for Bastion. Our products are manufactured with strict quality control measures in place and are third-party audited. Bastion products are ethically sourced and certified to the highest international accreditation standards.

EXPERTISE

With two decades of experience, Bastion are barrier protection specialists. We provide technical advice and support, along with the best solutions for your workplace needs.

RELIABILITY

Understanding the dynamics of supply and demand, we ensure our stock levels are maintained to meet your needs. We are well positioned to keep you well-stocked through our extensive and well-resourced logistics and distribution channel, ensuring consistent product availability for your business.

FIRST CLASS SERVICE

Our team are dedicated to delivering first class service. When you deal with Bastion, you'll become accustomed to an all-round great experience that includes friendly service, timely responses, efficient dispatch and accurate processing of orders.

**Protecting
New Zealanders
is our promise**

Our brand promise is to protect New Zealanders with industry leading barrier protection solutions. We strive to consistently deliver on our promise through our first class service, quality products and technical support.

Bastion Progenics System	22

Bastion disposable gloves are manufactured to the following international standards:

The Bastion glove range includes nitrile, vinyl, latex and polyethylene (PE) disposable gloves.

We also offer a Progenics Dispensing System which is available in both Nitrile and Vinyl gloves. This system dispenses gloves cuff first to minimise cross contamination and wastage.

How to Select the Right Disposable Gloves

A quick guide to Bastion glove materials

Selecting the ideal disposable gloves for every task

In every industry, the safety and well-being of workers are paramount. Disposable gloves form a first line of defense, protecting against contamination, facilitating hygiene in food service, and shielding hands in potentially hazardous conditions. With a variety of materials available, each type of glove is designed to meet specific needs – from medical-grade barriers to durable options for general use. Choosing the right disposable glove is not just about size and comfort; it's about matching the glove's material and quality to the task at hand. This guide will help you understand the properties of different glove materials and the importance of the Accepted Quality Level (AQL) in ensuring the highest standard of protection and performance.

Understanding the Accepted Quality Level (AQL)

The AQL is a crucial factor in glove selection. It signifies the quality level that is accepted by industry standards and provides a clear indication of a glove's barrier performance. A lower AQL number, such as 1.5, indicates a higher level of quality control, meaning fewer defects are allowed per batch. This standard is especially important in high-risk environments where exposure to harmful substances or the need for stringent sterility is high. Conversely, gloves with an AQL of 4.0 are suitable for lower-risk tasks but still provide reliable protection for everyday use.

When selecting gloves for any application, it is essential to consider the AQL to ensure your choice aligns with the required safety standards and provides your team with the necessary level of protection. Bastion gloves, with a certified 1.5 AQL rating, offer superior barrier protection and are trusted by industry professionals for their consistent quality and performance.

***Note: It is mandatory for glove manufacturers to indicate the AQL rating on the packaging, especially when gloves are certified to protect against chemicals and micro-organisms.*

1 LATEX GLOVES

- Made from natural rubber from the Hevea Brasiliensis tree
- Biodegradable
- Excellent elasticity, dexterity and flexibility

APPLICATIONS

Beauty therapists, healthcare, dentists, laboratories, hairdressing, animal handling, childcare, aged care and food service

2 NITRILE GLOVES

- Made from a mixture of Acrylonitrile and Butadiene
- Latex free - lower risk of allergic reaction
- Excellent puncture resistance

APPLICATIONS

Healthcare, aged care, beauty, hospitality, food service, childcare, hairdressing, heavy industrial environments, animal handling and food processing

3 VINYL GLOVES

- Made from Polyvinyl Chloride
- Latex free - lower risk of allergic reaction
- Used in lower risk environments

APPLICATIONS

Food service, hospitality and cleaning

4 POLYETHYLENE (PE) GLOVES

- Made from Polyethylene
- Latex free - lower risk of allergic reaction
- Light weight for light duties

APPLICATIONS

Food service and deli counters

Chemical Resistance

Bastion Latex Gloves

Bastion Latex Powder Free Gloves

Bastion Latex Powder Free Gloves offer premium thickness.

- Biodegradable rubber breaks down in landfills over time
- Silicone free
- Durable, flexible material and good elasticity
- Excellent strength and tactility
- Comfortable fit
- Micro-textured finish allows for outstanding wet & dry grip
- Standard 240mm length
- Ambidextrous
- HACCP certified, Medsafe registered and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
100/161	Small	10	100	1000
100/162	Medium	10	100	1000
100/163	Large	10	100	1000
100/164	X-Large	10	100	1000

Bastion Latex Ultra Powder Free Gloves

Bastion Latex Ultra Powder Free Gloves provide a slender, more tactile experience while offering reliable protection against contamination.

- Biodegradable rubber breaks down in landfills over time
- Silicone free
- Durable, flexible material and good elasticity
- Textured Surface for secure grip
- Standard 240mm length
- Ambidextrous
- HACCP Certified, Medsafe registered and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
100/141	Small	10	100	1000

100/307	XX-Large	10	45	450

Bastion Nitrile Gloves

Bastion Nitrile Long Cuff Powder Free Blue Gloves

Bastion Nitrile Long Cuff Powder Free Blue Gloves offer greater resistance to punctures and abrasions than vinyl or latex gloves. They are the preferred option in high-risk situations or where a superior level of protection is required.

- Great glove alternative for those allergic to latex
- Offers greater puncture resistance, structural integrity, and extended shelf life compared to latex and vinyl gloves
- Superior resistance to contamination
- Micro-textured on palm and fingers for excellent wet and dry grip
- Extra long 300mm length
- Ambidextrous
- HACCP certified, Medsafe registered and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
100/205	Small	10	100	1000
100/206	Medium	10	100	1000

1000/116	Triple Wall Bracket 280L x 90W x 360H (mm)	1	1	1

Bastion Progenics System

An Innovative Dispensing System to Reduce Contamination & Glove Wastage

Bastion Progenics is an innovative dispensing system, superior to any traditional disposable glove dispensing methods. It is designed specifically to minimise cross-contamination and to significantly reduce overall glove wastage and cost. This unique system is fast and easy to use. Gloves are dispensed one at a time, cuff first from the bottom of the box, preventing the user from touching the gloves inside the box. Additionally, unused gloves cannot be inserted back into the box, which further reduces the risk of cross-contamination. The Progenics system is the optimal dispensing solution in environments where hygiene is a pre-requisite.

CUFF FIRST REMOVAL
FOR EASE OF USE

Bastion Progenics Dispenser Brackets

Acrylic wall mounted dispenser bracket keeps gloves away from contaminated surfaces.

- Boxes are easily removed and replaced
- Brackets are supplied in kits with screw fittings, double sided tape and mounting instructions

Item Code	Description	Inners	Qty per inner	Full ctn qty

Bastion Progenics Nitrile Powder Free Blue Gloves

Gloves are dispensed cuff first from the box to help reduce the risk of contamination and wastage.

- Superior puncture resistance, surface strength and longer shelf life over latex and vinyl gloves
- Ambidextrous
- Superior resistance to contamination
- Dermatologically tested to prevent allergic reactions that can be encountered with latex
- Micro-textured fingertips for excellent wet and dry grip

Reusable Gloves

Bastion Silverlined Gloves

26

Bastion reusable gloves are manufactured to the following international standards:

Silverlined (Latex) reusable gloves are designed for commercial cleaning and for general purpose business and household usage.

The Latex outer offers durability, resists alkalis, alcohols, detergents, and chemical solutions. The inner silver lining provides heat resistance, while making them easy to put on.

Bastion Silverlined Gloves

Bastion Silverlined Yellow Gloves (Latex)

Bastion Latex Silverlined gloves come with an outer honey comb pattern for excellent grip, especially in wet applications.

- Excellent strength, grip, abrasion, tear and puncture resistance
- Silverlined for easier donning
- Sanitised additive included to protect against bacterial and fungal growth
- HACCP certified

Bastion disposable clothing is suitable for a wide range of uses including healthcare, industrial, cleaning, food manufacturing, food service and farming.

We have you covered from head to toe when it comes to disposable clothing. We offer gowns, aprons, splash jackets and lab coats, masks, beard protectors, hats, sleeve protectors and overshoes.

Bastion Masks, Beard Protectors and Hats

Bastion Surgical Face Mask

Bastion face masks are made of 3 ply polypropylene to filter and catch bacteria shed in liquid droplets and aerosols from the mouth and nose.

- Universal elasticated ear loops for comfort
- Skin-friendly material
- 3 ply layered and pleated design with a flexible nose wire
- Latex and fiberglass free with a breathable soft lining
- HACCP certified

Item Code	Description	Inners	Qty per inner	Full ctn qty
700/210	Blue - Ear Loops	20	50	1000

Bastion Beard Protectors

Bastion Beard Protectors are made of polypropylene and prevent the transfer of hair and skin particles in a hygienic environment. They are skin-friendly, comfortable, and easy to put on.

- Single loop elasticated shape for securing around different beard styles
- Double loop elasticated shape for extra support
- HACCP certified and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
700/200	White - Single Loop	10	100	1000
700/201	White - Double Loop	10	100	1000

Bastion Bouffant Hats

Bastion Bouffant Hats gather and contain long hair.

- Universal fit and comfortable design
- Skin-friendly material
- Easy to fit with an elasticated bouffant shape for securing around hair
- HACCP certified and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
700/100	White - 53cm/21"	10	100	1000

Bastion Jacket and Aprons

Bastion Splash Jacket with Hood

Bastion Polyethylene Hooded Splash Jackets provide excellent shower proof protection, comfort and breathability. They are used widely in medical, general industry, food processing, cleaning and farming applications.

- Knee length for added protection
- One size fits all (130cm x 80cm)
- Elastic cuffs and tie-down hood
- Available in white or blue options
- HACCP certified and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
700/606	White 1300L x 800W (mm)	20	10	200
700/606B	Blue 1300L x 800W (mm)	20	10	200

Bastion Standard Duty Aprons

Bastion Standard Duty LPDE White Aprons are suitable for patient care, food preparation and cleaning applications.

- Individual tear off for ease of use
- Smooth soft surface for easy wearing
- Fitted using ties at rear
- 30 microns thick
- HACCP certified and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
700/401	White 1250L x 800W (mm)	10	50	500

Bastion Heavy Duty Aprons

Bastion Heavy Duty LPDE Aprons are suitable for food preparation, cleaning and where more protection is required.

- Heavier duty apron for more rigorous activities
- Individual tear off for ease of use
- Smooth soft surface for easy wearing
- Fitted using ties at rear
- 40 microns thick
- Available in white or blue options
- HACCP certified and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
700/404	White 1350L x 800W (mm)	10	50	500
700/405	Blue 1250L x 800W (mm)	10	50	500

Bastion Sleeve Protectors, Boot Covers and Overshoes

Bastion Plastic Sleeve Protectors

Bastion Plastic Sleeve Protectors are used for medical, general industry, food processing, farming and home care applications.

- Elasticated low density polyethylene (LDPE) ends for exact and comfortable fit
- Provides superior protection
- 400mm length for excellent protection from wrist to elbow
- HACCP certified and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
700/500	White 400L x 190W (mm)	20	100	2000
700/501	Blue 400L x 190W (mm)	20	100	2000

Bastion Polyethylene Boot Covers

Polyethylene Boot Covers are ideal for use in wet environments indoors or a clean air facility where airborne contamination from particles must be kept to a minimum.

- Dust repellent to avoid contamination
- Elasticated band at top to secure to clothing
- Waterproof plastic
- HACCP certified and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
700/300	Clear 400 x 500 (mm)	20	50	1000

Bastion Polyethylene Overshoes

Ideal for use in wet environments indoors or a clean air facility where airborne contamination from loose particles must be kept to a minimum.

- Dust repellent to avoid contamination
- Elasticated band at top to secure to shoe
- Waterproof plastic
- Fits over small to larger sized shoes
- HACCP certified and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
700/303	White 410 x 170 (mm)	20	100	2000
700/303B	Blue 390 x 150 (mm)	20	100	2000

Bastion Polypropylene Overshoes

Polypropylene shoe covers are made from heavy weight (40gsm) material. Ideal for use in areas where the user is indoors and working in dry areas.

- Dust repellent to avoid contamination
- Lightweight, breathable, splash resistant
- Elasticated band at top to secure to shoe
- Non skid sole
- Fits over small to large sized shoes
- HACCP certified and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
700/301	Blue 410 x 170 (mm)	10	100	1000

Bastion Polypropylene Concise-Fit Anti-Skid Overshoes

Polypropylene disposable shoe covers are made from heavy weight (40gsm) material with a painted white non skid sole for a better grip. Ideal for use where the user is indoors and working in dry areas.

- Anti-skid pattern on base for extra secure footing
- Dust repellent to avoid contamination
- Elasticated band at top to secure to shoe
- Breathable
- Fits over small to large sized shoes
- HACCP certified and FDA approved

Item Code	Description	Inners	Qty per inner	Full ctn qty
700/302	Blue 410 x 170 (mm)	10	100	1000

Janitorials

Bastion Wipes on a Roll	40
Bastion Dry Handi Wipes	41
Bastion Scouring Pads	41
Bastion Waste Bin Liners	42
Bastion Bin Liners in a Box	42
Bastion Kitchen Tidies	43

Cleaning constitutes one of the most crucial aspects of any industry, which is why we have curated a high-quality selection of products. Our range includes heavy-duty and regular-duty wipes, dry handi wipes, scouring pads, bin liners, and kitchen tidy liners.

Bastion Wipes and Scouring Pads

Bastion Heavy Duty Wipes on a Roll

Bastion Heavy Duty Cleaning Wipes are made of 70% viscose and 30% polyester.

- Extra strong spunlace construction
- Excellent absorbency
- Easy tear off perforated sheets
- Re-usable, washable and fast drying
- Different colours for specific applications
- HACCP certified

Item Code	Description	Sheets per roll	Rolls per ctn
1000/121	Blue - 500 x 300 (mm)	90	4
1000/122	Red - 500 x 300 (mm)	90	4
1000/123	Green - 500 x 300 (mm)	90	4
1000/124	Yellow - 500 x 300 (mm)	90	4
1000/125	Cappuccino - 500 x 300 (mm)	90	4

Bastion Regular Duty Wipes on a Roll

Bastion Regular Duty Cleaning Wipes are made of 70% viscose and 30% polyester.

- Spunlace construction
- Excellent absorbency
- Easy tear off perforated sheets
- Re-usable and fast drying
- Different colours for specific applications
- HACCP certified

Item Code	Description	Sheets per roll	Rolls per ctn
1000/141	Blue - 500 x 300 (mm)	90	6
1000/142	Red - 500 x 300 (mm)	90	6
1000/143	Green - 500 x 300 (mm)	90	6
1000/144	Yellow - 500 x 300 (mm)	90	6

Bastion Dry Handi-Wipes White

Bastion Dry Handi-Wipes come in a dispenser box with a carry handle. Wipes are made of 45% cellulose and 55% polyester and are ideal for many applications where a fast spill-clean-up wipe is required.

- Sheets folded and dispensed via dispenser box
- Large 500 x 300 (mm) surface area
- Extremely high tear resistance and absorption
- Ideal for water and oily liquids
- Very low lint properties
- HACCP certified

Item Code	Description	Inners	Qty per inner	Full ctn qty
1000/131	500 x 300 (mm)	4	150	600

Bastion Scouring Pads Green

Bastion scouring pads are hard wearing and effective for general cleaning duties. This includes duties such as dishes, and appliance cleaning.

- Made from 50% Terylene and 50% Nylon
- HACCP certified

Item Code	Description	Inners	Qty per inner	Full ctn qty
1000/111	Bulk Pack 200 x 150 (mm)	1	100	100
1000/112	Retail Pack 200 x 150 (mm)	10	10	100

Bastion Bin Liners and Kitchen Tidies

Bastion Waste Bin Liners

Bastion Bin Liners are made from virgin low-density polyethylene (LDPE) for consistent performance and reliability.

- Low-odour LDPE
- High-puncture/tear resistant
- Folded and dispensed neatly from a pack
- HACCP certified

Item Code	Description	Inners	Qty per inner	Full ctn qty
200/110	White - 60 Ltr 866L x 635W (mm)	10	50	500

Bastion Industrial Gloves

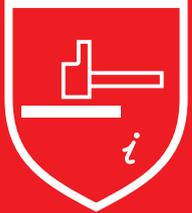

Understanding Performance Levels

Bastion gloves are certified to EN 388:2016 European safety standard third-party test that evaluates gloves for abrasion, cut, tear, and puncture resistance.

Each glove has a pictogram that indicates it has passed the EN388:2016 standard. The numbers indicate how well they performed against each test.

EN388:2016

EN388

1 2 3 4 X

ABRASION RESISTANCE (1-4) _____

CUT RESISTANCE (COUP TEST) (1-5) _____

TEAR RESISTANCE (1-4) _____

PUNCTURE RESISTANCE (1-4) _____

CUT RESISTANCE ISO 13997 (A-F) _____

How To Read The Numbers & Letters

Cut resistance is rated 1-5, while all other physical performance factors (abrasion, tear, and puncture resistance) are rated 1-4. The higher the number indicates a better performance.

In the TDM cut resistance test, the glove is assigned a letter from A to F, where F indicates the highest level of protection.

Performance Rating	1	2	3	4	5	
Abrasion Resistance (Cycles)	100	500	2000	8000	-	
Circular Blade Cut Resistance (Coupe Test Method)	1.2	2.5	5.0	10	20	
Tear Resistance (Newtons)	10	25	50	75	-	
Puncture Resistance (Newtons)	20	60	100	150	-	
Performance Rating	A	B	C	D	E	F
Cut Resistance (ISO 13997 - TDM Test Method)	2	5	10	15	22	30

Colour Sizing Chart

Many of our safety gloves have a coloured band at the cuff to quickly identify the size.

Bastion Chemical Resistant Gloves

PVC Red Gloves

Features:

- Excellent resistance to chemicals and petroleum based products
- Single dipped coating with good feel and flexibility
- Cotton interlock liner for increased comfort and perspiration absorption
- 45cm option for increased arm protection
- Knitted cuff option for better fit and debris exclusion

APPLICATIONS

- Automotive, chemical processing, fisheries, pharmaceutical, petroleum refining, forestry and manufacturing
- Transport and logistics, engineering and welding, recycling and waste management, facilities maintenance and heavy industry (for knitted cuff)
